1. **TREES** – The tree species have been identified to the best of the surveyors knowledge, with the mean spread drawn to scale. Tree heights are approximate.
2. **DRAINAGE** – All drainage has been surveyed by visual inspection only and should be cross checked in critical areas.
3. **FENCES** – Fences shown are not necessarily legal boundaries.
4. **GRID** – The survey grid is based on Ordnance survey co-ordinates derived from GPS.
5. **LEVELS** – Levels relate to OSBM derived from GPS.
